Whisper of stars: Daniel Spoerri garden

Carlo Gabriele June 20, 2015

"Margherita, I would like to visit something really special before I will go back to Melbourne. Can you help me?" My friend Margherita has spent her life writing about gardens, plants and parks in the Italian magazine 'Gardenia'. She also founded the [Italian Botanical Heritage](#), an association that gathers well-known Italian gardens and hidden treasures like nurseries, parks and woods, providing specialised itineraries. She knows me, and she knows that I love when art is blended with landscape. Where sculpture meets the garden. Typically Italian, sorry!
